RE: Appraisal of
300 Block of Walnut St
New Orleans, LA 70118

In accordance with your request, we have personally inspected and prepared an appraisal of the property located at 300 Block of Walnut St, New Orleans LA 70118.

The purpose of this appraisal is to estimate the market value of the property described in the body of this report as of 04/25/2023. It is understood that the function of this appraisal is to determine the current market value of a hypothetical lot in the 300 block of Walnut St. on the Audubon Park side of the street. The appraisal was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

This is an *Appraisal Report* in accordance with Standards Rule 2-2(a) of the Uniform Standards of Professional Appraisal Practice 2022-2023. As such, it presents sufficient information to enable the client and other intended users, as identified, to understand it properly.

The property is located in Flood Zone X500 which **is not** a FEMA Identified Special Flood Hazard Area.

The opinion of value expressed in this report is contingent upon the Certifications and Statement of Limiting Conditions page attached to this report. The acceptance of this appraisal assignment by the appraiser was not based on a requested minimum valuation, or the approval of the loan. The appraiser certifies that the compensation for this appraisal is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result of the occurrence of a subsequent event. This appraisal has been prepared to conform with the Uniform Standards of Appraisal Practice ("USPAP") adopted by the Appraisal Standards Board of the Appraisal foundation. The appraiser has disclosed within this appraisal report steps taken that were necessary or appropriate to comply with the competency provision of the USPAP.

To develop an opinion of value, the appraisers performed a complete appraisal process, as defined by USPAP. To develop this type of appraisal, the appraiser considered all applicable approaches to value and explained and supported the exclusion of any particular approach.

The value estimate is made " **As Is** ".

As per current FIRREA minimum appraisal standards, we **have** completed previous appraisals of single-family residences in this area. An inspection of the appraised property, a study of pertinent factors, valuation trends, and the general neighborhood data, led us to the conclusion that the market value, as of 04/25/2023, is:

\$1,064,000.00 or \$112 sf of site area.

It has been a pleasure to assist you. If we may be of further service to you in the future, please let us know.

Respectfully submitted,

Christopher Smirolodo, SRA

Comments on Prior Sales/Transfers and Current and Prior Listings: There have been no additional prior comparable sales within the past year.

Summary of the Sales Comparison Approach: The comparable sales used in this analysis were drawn from the subject's general area and were selected based on location, size, and recent sales date. The comparable sales selected were felt to most accurately reflect the market in the area and to provide the most reliable indicator of value. The adjustments reflect differences recognized in the market and are considered typical. The comparables used support the Market Data Approach and are considered to be the best ones available. Comparable recent sales in the area are extremely limited as the subject's location on Audubon Park is one of the most desirable locations in the city and there currently are no vacant homesites available on the street. Sales 1 is considered to be most similar with regards to location and proximity with an upward view adjustment made due to the subject's superior park view. An upward view adjustment was also made to sale 2 due to it's residential views and inferior location farther East and South of Magazine St. Sale 3 is located in a competing area of neighboring Jefferson Parish with a similar golf course green space view. No more similar sales were available. The selected sales were equally weighted.

Reconciliation Comments: The Market Data Approach is used as the primary indicator of value. The appraised value of the hypothetical lot is \$1,064,000. This is based on the hypothetical lot size of 100x95 or 9,500 sq. ft. This equates to a price per sq. ft. value of \$112/sf for the vacant land value in the 300 block of Walnut St. on the Audubon Park side of the street.

This appraisal is made ☐ "as is", or ☒ subject to the following conditions or inspections: Based on the hypothetical condition that subject is a vacant lot in the 300 block of Walnut St. on the Audubon Park side of the street.

Based on a complete visual inspection of the subject site and those improvements upon said site, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of market value, as defined, of the real property that is the subject of this report is:
Opinion of Market Value: \$ 1,064,000 , as of: 04/25/2023 , which is the date of inspection and the effective date of this appraisal.
